

## United States Federal Trademarks

### ■ Contents :

This register covers all the US Federal Trademarks in force since 1884 as well as inactive marks (expired, abandoned or cancelled) since 1984.

It covers all the information recorded in the USPTO system ( United States Patent & Trademark Office) concerning the Federal trademarks, including trademarks, service marks, certification and collective marks, marks filed for use, intent to use or those that were already registered abroad.

Assignment and opposition procedure information may also be found in this register.

#### Notes :

- The pseudo-marks generated by the examiners at the USPTO are not included
- International Applications designating the US and applications for International Registration are not covered

**Remarks :** For a comprehensive search on the United States, it is necessary to search also in the **US STATE** and **INTERNATIONAL** trademark registers. In the International Trademark register, select the US as a country designated by the Madrid Protocol.
