

Patent & Trademark Document Retrieval Service

US & Foreign File Histories (File Wrappers)

With one of the industry's largest collections of File Histories, our experienced staff at the United States Patent & Trademark Office (USPTO), and our international alliances, we are able to supply both US and foreign documents quickly to our clients.

When you receive a File History from DigiPat, you can expect it to be:

- Carefully reviewed and chronologically organized
- Indexed to identify office actions and neatly tabbed for efficient reviewing
- Bound with a custom file cover which references important information including your docket or matter number.

All cited documents may also be ordered.

Electronic files are available in PDF and searchable PDF, with bookmarks, via email, CD-ROM or download from our secure and confidential website.

Patents & Published Applications

DigiPat's massive online database houses one of the largest commercial collections of patents & published applications from around the world. As with our File Histories, requested copies can be delivered in multiple formats.

USPTO Certified Documents

DigiPat's certification team provides your certified documents accurately and promptly. You are always kept informed as to the status of your orders.

Trademarks, Copyrights, Legalizations/Authentications

In addition to being a leader in the supply of Trademark File Histories we provide copies of Copyright Registrations & Publications Notices as well as services of Legalization, Authentications and Hand Carries.
