

FRDESIGN

French Designs

■ Contents:

Bibliographic, administrative and legal information concerning French industrial designs

A record comprises the design : there is one record per design.
However, one application can contain one or several designs, each represented by one or several reproductions of design (with a limit of 100 reproductions per application).

The information covered is taken from the 'Bulletin Officiel de la Propriété Industrielle - Dessins et Modèles' (BOPI).

FRDESIGN comprises all designs published since 1910. The reproduction images are also available for designs published since February 16, 1996.

Images can be displayed using:

- QWEB (www.qweb.questel.orbit.com) which allows viewing of all the reproductions available for one design
- Imagination Internet which allows viewing of only the first reproduction of a design
