## Establishment Signs

### ■ Contents :

- Registered Establishment Signs ( "Rotulos de Establecimiento" )
- Information concerning inactive Establishment Signs

The statutes and the various events of the life of the signs are indicated in Spanish in the field "Notifications".

The old Spanish law on trademarks protected the Establishment Signs as a right having a local range and protection was limited to the municipal districts for which they are recorded. The new Spanish law on trademarks does not provide for Establishment Signs. Therefore application and renewal of this type of mark (Establishment Signs) has not been possible since July 31, 2002.

#### Note:

- The Nice Classification does not apply to this register
- When the field "**Goods & Services**" is present (approx. 20% of notices), it contains the description of the establishment.

**Remarks:** For a comprehensive search of all trademarks having effect in Spain, search in the **SPAIN Trademark**, **SPAIN Commercial Names** and **SPAIN Establishment Signs** as well as **INTERNATIONAL** and **COMMUNITY** registers. In the International register, select (European) Community and Spain as designated states.
